

STUDENT GUIDELINES

TEST DAY INSTRUCTIONS

01 | TEST SCHEDULE

The test will be conducted according to your batch timing:

Batch	Test Timing
Morning Batch	8:15 AM – 10:00 AM
Afternoon Batch	1:15 PM – 3:00 PM

IMPORTANT

Students must be present and ready before the test begins.

02 | TEST TOPICS

The test will cover the topics discussed during the sessions.

- Programming Fundamentals
- Logical Problem Solving
- Arrays
- Strings and String Methods
- StringBuffer and StringBuilder
- OOP Concepts
- Classes and Objects

PREPARATION

Please revise all the above topics before the test.

03 | LAPTOP REQUIREMENT

A laptop is mandatory for the test.

- Ensure your laptop is sufficiently charged.
- Ensure you have a stable internet connection.
- Make sure your laptop is ready for use.
- The test will be conducted on the designated test platform.

04 | LOGIN INSTRUCTIONS

Students must use their personal email ID to log in to the test platform.

- Use the personal email ID shared with your mentor.
- Make sure you remember the email ID you have registered with the program.
- Do not use another student's email ID or an unauthorized account.
- If you face any login issue, inform your mentor immediately.

REMEMBER

Use only your registered personal email ID to access the test.

05 | TEST INSTRUCTIONS & RULES

Before the test begins, the mentor will explain the test pattern, duration, question format, submission process, platform instructions, and rules to be followed.

During the Test — Students must NOT:

- Switch tabs during the test.
- Open other websites or applications unless permitted.

- Communicate with other students.
- Use unauthorized resources.
- Use their mobile phone.
- Attempt to access or use any unfair means.

SYSTEM WARNING

If any test rule is violated, the system will issue a warning. Repeated violations will result in the test being automatically submitted by the system.

06 | MOBILE PHONES

Mobile phones will be collected before the test begins.

- Do not keep your mobile phone with you during the test.
- Complete any necessary calls or messages before the test starts.
- Do not attempt to access your mobile phone during the test.

07 | LOGIN & TECHNICAL ISSUES

- Make sure you are able to access the test platform before the test begins.
- Log in using your personal email ID.
- Verify that the test is accessible.

If you face any login or technical issue, inform your mentor immediately. Do not wait until the end of the test to report an issue.

08 | ATTENDANCE

Attendance will be taken through a QR code.

- Scan the QR code provided by the mentor.
- Complete your attendance.

- Verify that your attendance has been marked correctly.

09 | REVIEW & FEEDBACK

A review link will be shared with the students who are present via email.

- Check your email for the review link.
- Open the review link.
- Complete the review as instructed.
- Submit the review within the given timeline.

DETAILED FEEDBACK

Students will receive their detailed feedback through email in the coming days.

10 | AFTER THE TEST

After completing the test, the session will continue with:

NEXT UP

Pseudocode discussion of practice problems → Concept introduction

Students are expected to actively participate in the pseudocode and practice-problem discussions.
